OBJECTIVE

I aim to use my skills to work effectively with a team of professionals. I plan to learn and improve my skills while expanding on my design thinking and knowledge.

EXPERIENCE

General Motors, Los Angeles, California — *Creative Clay Sculptor*

July 2022 - Present

General Motors, Warren, Michigan — *Creative Clay Sculptor - Intern*

May 2021 - August 2021

As a Creative Clay Sculptor (intern) I worked collaboratively with Design, Sculpting, and Engineering to interpret sketches and develop clay scale models of future automotive themes using established and emerging clay sculpting practices and techniques. I regularly presented models and project updates to Leadership members. I also regularly performed milling operations within the studio on scale and full size properties. I supported general sculpting assignments within the studio including, but not limited to extensive work on full scale properties involved in ongoing programs for future production vehicles.

R&A Cycles, Walnut Creek — *Asst. Director of Service & Support*

January 2020 - July 2022

At R&A Cycles I work with our Director of Operations to manage a massive team spread between three physical locations across the nation. Our team services a global market which has allowed me to use my communication and management skills to best serve our clients.

East Bay Auto Spa, Walnut Creek — *Exotic and Luxury Specialist*

January 2019 - January 2022

At East Bay Auto Spa I handle all paint correction, Ceramic Pro, and paint protection film projects on exotic and luxury cars. I was chosen for this position due to my attention to detail and ability to detect surface imperfections. My portfolio ranges through brands such as Ferrari, Lamborghini, Porsche, Bentley, etc.
