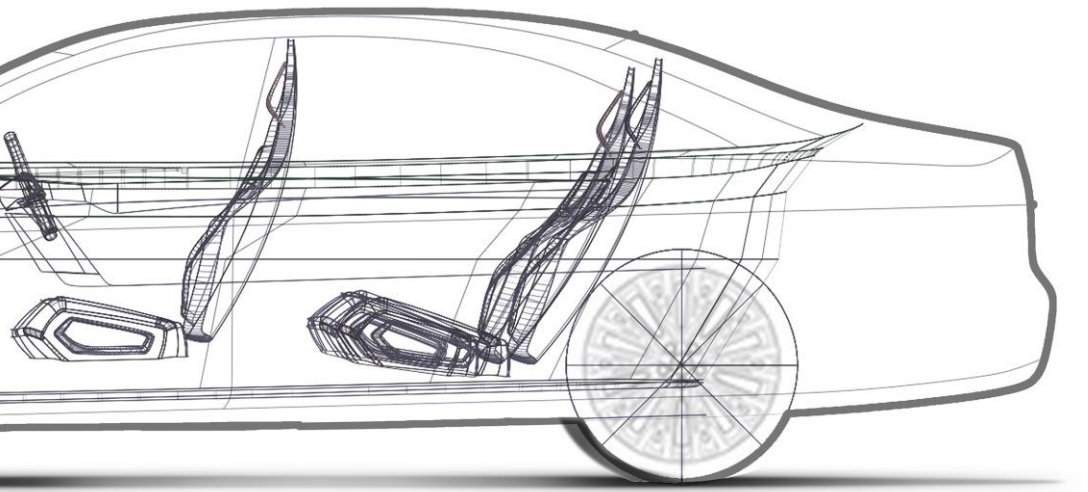
CAR INTERIOR DESIGN

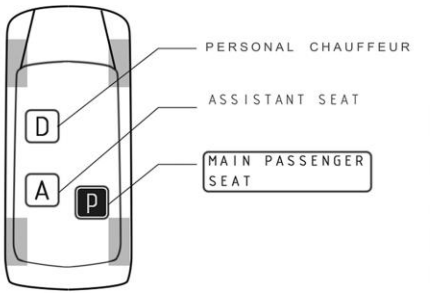


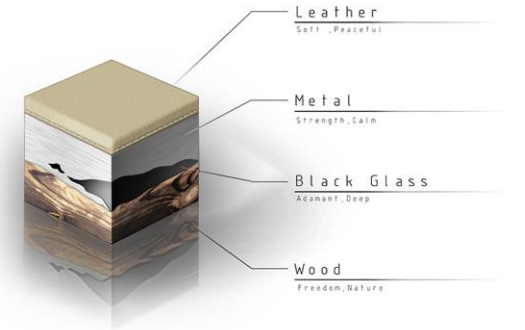
2030 VOLVO INTERIOR CONCEPT

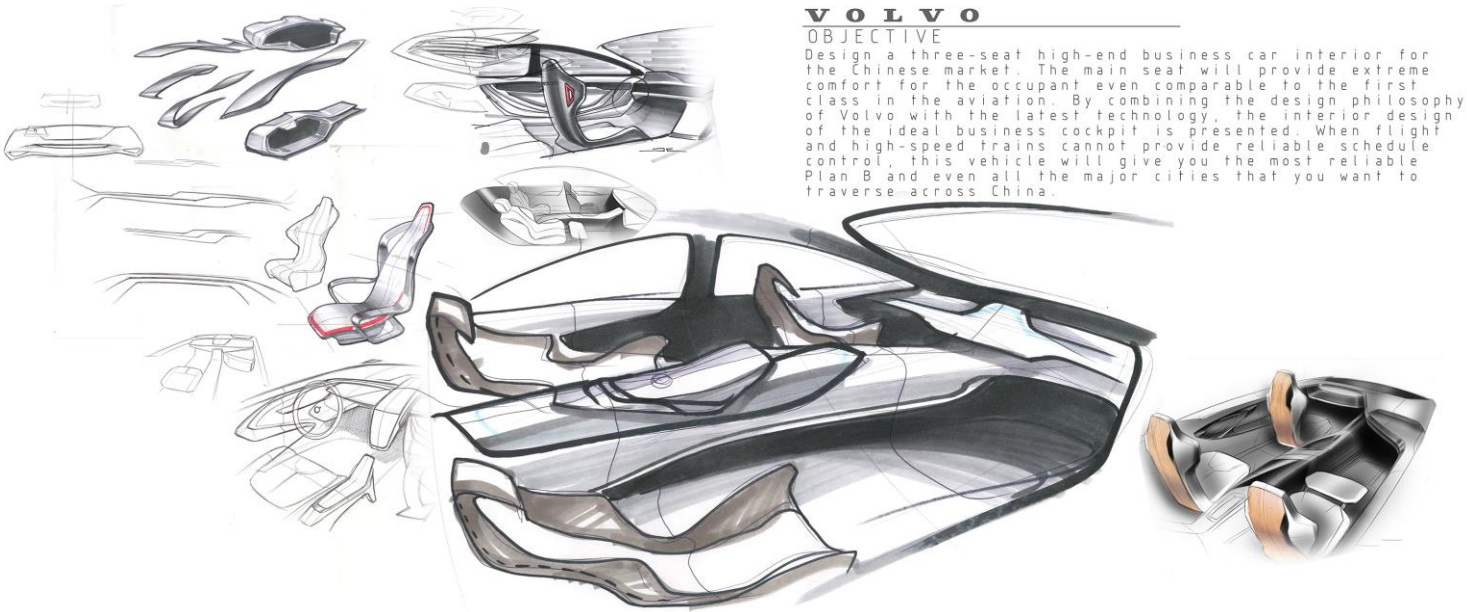
3-Seats High-end Sedan

JIACHEN XU

TARGET MARKET







VOLVO

OBJECTIVE

Design a three-seat high-end business car interior for the Chinese market. The main seat will provide extreme comfort for the occupant even comparable to the first class in the aviation. By combining the design philosophy of Volvo with the latest technology, the interior design of the ideal business cockpit is presented. When flight and high-speed trains cannot provide reliable schedule control, this vehicle will give you the most reliable Plan B and even all the major cities that you want to traverse across China.
